SKILLS

- **SQL:** MySQL
- **Python:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn.
- **Visualization:** Microsoft Power BI, Microsoft Excel
- **Machine Learning:** Predictive Modeling, OpenCV, YOLO, EasyOCR.

PROJECTS

Pizza Sales Analysis – Personal Project

- **Analysis:** Utilized SQL and Power BI to analyze sales trends and order patterns across various pizza categories.
- **Growth & Solution:** Identified peak periods to optimize inventory; suggested targeted promotions for low-volume days to boost revenue.

Customer Shopping Behavior Analysis – Personal Project

- **Analysis:** Conducted EDA using Python to segment customers and identify brand loyalty drivers with 20% higher lifetime value.
- **Solution:** Provided insights for personalized marketing campaigns aimed at reducing churn and improving retention.

Superstore Sales Insight – Personal Project

- **Analysis:** Visualized \$2.30M revenue portfolio in Power BI to pinpoint supply chain bottlenecks in low-performing regions.
- **Solution:** Developed an automated KPI dashboard for real-time inventory tracking and data-driven restocking decisions.

License Plate Detection System – Technical Project

- **Development:** Built an automated recognition system using YOLOv9 and EasyOCR to improve urban traffic monitoring efficiency.

CERTIFICATIONS

- Machine Learning Specialization — Stanford University (Coursera, 2025)
- Power BI for Beginner — SkillUp (Simplilearn, April 2026)
- Generative AI in Action: Real-World Use Cases — (AWS, Sep 2025)
- Data Science and Machine Learning — (Ostad, Ongoing)

EDUCATION

Bachelor of Science — Daffodil International University

Major: Computer Science & Engineering (May 2019 – Sep 2024)
